

2300 MityLite™

The MityLite™ 2300 Flashlight packs a lot of power in its small body. Unlike ordinary flashlights that produce a yellow beam, the 2300 has a focused Xenon modified spot that produces a tight white beam that penetrates smoke and fog. Just twist the shroud to turn on. The Xenoy polymer resin body is resistant to chemicals, water and corrosion. Attach the MityLite™ 2300 to one of our optional helmet light holder clips and you have a hands-free light for work or play. Powered by 2 AA alkaline cells.

- Built Pelican tough
- Compact and Lightweight
- Super bright Xenon beam
- Twist on/off activation
- Unconditional Lifetime Guarantee of Excellence
