

2370

Tactical Flashlight

One of our most sophisticated aerospace grade aluminum torches, the 2370 LED torch has been designed as 3 lights in one.

A rotating magnetic dial switches between bright white light and night vision red or green light, so the 2370 LED is the only torch you will need, whether piloting an aircraft, or navigating a park trail at night. The anodized aluminum body is strong and light weight while the strengthened steel clip fastens securely to your pocket. The 2370 is programmable and is equipped with 3 white light modes (High, Strobe, Low). The 4 different programs allow for personal options.

The 2370 LED: It keeps you dialed in to the action.

- Built Pelican tough
- 3 LED Colors
- 3 modes High / Strobe / Low
- 2 AA Batteries (included)

DIMENSIONS

Length 6.43" (16.3 cm)

MATERIALS

Body Aluminum with Type II Anodized

O-Ring EPDM

Lens Polycarbonate (PC)

Shroud Aluminum with Type II Anodized

Clip High Carbon Steel

COLOURS

Black

LIGHT SPECS

Lamp Type LED

POWER

Battery Size AA
Battery Type Alkaline
Battery Quantity 2
Batteries Included yes
