**Ruck Case** 

When the elements turn brutal, compromise isn't an option. The Peli R40 Personal Utility Ruck Case is built for people who demand more than durability — it's for those who expect dependability. Every hinge, latch, and seal is designed to thrive where cheap copies fail. Inside, organization meets intention. A structured divider tray, flexible lid organizer, and MOLLE-style loops keep your essentials secure and accessible, while the pressure equalization valve ensures smooth operation at any altitude. Rugged yet refined, the R40 carries the legacy of decades of field-tested design — a dependable companion built not for show, but for a lifetime of real adventure.

- Protezione con classificazione IP68 da acqua, sporco, neve e polvere
- Chiusura a cerniera a doppia articolazione
