

SAFETY RECALL

Pelican 9410 and 9415 NiMH Flashlights can Become Unstable and Explode while Charging, creating a Risk of Injury.

Stop Charging and Using the Flashlight Immediately

	
<p>Pelican 9410/9415 Flashlight in Yellow or Black</p>	<p>Pelican Replacement Charger Black (9410/9415)</p>

	 OK
	 RECALL
	 LOOK ON HANDLE FOR MODEL NUMBER
	

To identify recalled products without the original packaging, check the decal on the handle area that states the model or catalogue number.

For the individual charger and product, the labels show the catalogue or model number (see on left).

Contact Pelican, 8:30AM-5 PM, Monday through to Friday at 02 4367 7022, or info.australia@pelican.com for more information and instructions regarding this recall.

***Note: 9410L, 9415i & 9415 Z0 are NOT included in this safety recall.**
