

2315

The hazard horizon is bright. With Class I, II, III – Division 1 and IECEx ia Safety Certification, 115 lumens and 75 meters of spot beam distance, the Pelican™ 2315 flashlight stretches light across dark, hazardous environments without being a source of ignition. Engineered with an aluminum core and ABS overmolded plastic, these flashlights are built for rough handling and can survive hard drops. Plus, the

flashlights are built for rough handling and can survive hard drops. Plus sturdy clip attaches to a work vest for fast access and the tail switch activates raw LED power, even when using heavy-duty work gloves. Pelican[™] 2315 - SEE THE LIGHT AT THE END OF THE TUNNEL
